Product Specification Sheet

Targus Travel USB 2.0 4- Port Hub with Built-in Cable

Part #: ACH75US

Product Description:

The Targus Travel USB 2.0 4-Port hub enables travelers to expand one USB port into four ports. Easily connect up to 4 USB devices to your notebook simultaneously and peripherals such as a mouse, printer, digital camera and more. The hub is simple to use, no drivers or software are required, simply plug and play. An ac adapter is optional but not required. Ideal for mobile users who need to connect numerous peripherals to their notebook, this hub is compact and lightweight for easy travel.

Product Features and Specifications:

- **Functionality –** Simultaneously Connect up to four USB devices such as mice, keyboards, memory drives, presenters and more. AC adapter is optional but not required
- **Self-contained Casing–** Two of the four USB ports fold into the casing, creating an easy-to-transport form factor.
- **Ease of Use –** Simply plug and play; no drivers required
